1. BACKGROUND

The Arizona Department of Health Services, Office of Nutrition and Chronic Disease Prevention Services, receives funding through a cooperative agreement with the Centers for Disease Control and Prevention (CDC) and the State of Arizona to provide a statewide breast and cervical cancer screening program, known locally as the Well Woman HealthCheck Program. The WWHP is part of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP), which was authorized when the U.S. Congress passed the Breast and Cervical Cancer Mortality Prevention Act of 1990, Public Law 101-354. The Act placed the responsibility for NBCCEDP with the United States Government's Centers for Disease Control and Prevention. It also provided the foundation of NBCCEDP policies and requirements with regard to program eligibility and operations in each state.

The Breast and Cervical Cancer Mortality and Prevention Act of 1990 strictly prohibits use of NBCCEDP funds for cancer treatment. In October 2000, the U.S. Congress passed the Breast and Cervical Cancer Prevention and Treatment Act of 2000, Public Law 106-354. This law gives states the authority to provide optional Medicaid coverage to certain breast or cervical cancer patients. In the spring of 2001, the Arizona Legislature passed H.B. 2194 that authorizes the Arizona Health Care Cost Containment System (AHCCCS), effective January 1, 2002, to provide cancer treatment for certain women diagnosed through the WWHP with breast cancer, pre-cancerous cervical lesions and cervical cancer. To be eligible for treatment, women must be screened through the Well Woman HealthCheck Program on or after April 1, 2001, be under the age of 65, a resident of Arizona, have no credible health insurance coverage, and be a U.S. citizen or qualified alien.
